Project information

Project name:	
Project start date:	
Project end date:	
Research field / discipline:	
Funding amount / currency:	
Location of project:	

Applications fulfilling any of the following criteria are not eligible for funding and will be rejected automatically:

- Basic research projects of a purely exploratory nature, with no clear pathway to a proof of concept (typically TRL 1 to 2)
- Projects at an advanced technological readiness level that are predominantly market- or product-driven (typically TRL > 6)
- Clinical trials
- Activities in the arts and culture (e.g. music, theatre, dance, film, visual arts, cultural heritage), sports and leisure
- Political campaigns or party-political activities
- Projects in social services or disaster relief
- Projects run by other foundations (co-financing) or purely supplementary co-funding of projects
- Individual grants, study costs, funding for individuals, and doctoral theses as stand-alone projects
- Qualification and funding programmes for early-career researchers, the translation of research findings into practical application, and the development of effective transfer and service structures
- Open-ended projects (e.g. funding for ongoing operating costs or recurring core funding)
- Projects with a commercial focus (e.g. venture capital, private equity)
- The financing of general infrastructure costs (e.g. buildings, technical equipment or operational instruments) without a clearly defined project aim
- Short-term projects (duration < 5 years) and small-budget projects (costs < 3 million)

Project discription
